

My name is **Omar Syed Ayman**. I joined ALSondos Foundation for orphans with special needs in 2019/6/17. **I am four years old now.**

Omar has a congenital disease called Down Syndrome, which led to a physical and mental

delays. He suffers from general weakness in the muscles of his body, especially the lower part.

After the physiotherapy sessions, his condition improved and he is able to stand on his own and take steps with the help of others. With speech sessions, he is able to pronounce some words.

Omar would like to say:

**I love my surrogate mother 'Engy' so much
and like to play with her.**

**I love to play with mini cars and I love to race with
my brothers.**

My favorite color is yellow.

**I also love to eat pomegranate - this is my favorite
fruit.**

**Lastly I am thankful to be part of AlSondos family
for kids with Special Needs like me, and very
thankful to all our sponsors.**
