

My name is [Rabea Osama Elsheshtawy](#).

I joined ALSondos Foundation for orphans
with special needs in 2020/2/13. I'm four
years old now

Rabea suffers from severe atrophy of the brain, which leads to a severe delay in his motor abilities, and this led to the inability to sit and rolling over.

(He has a type of cerebral palsy)

He also suffers from nearsightedness in his eyes and partial atrophy of the optic nerve, and he needs to wear glasses.

Rabea is undergoing periodic follow-up and pharmacotherapy.

Rabea now is able to sit with the help of others and pay attention to the visual and audio effects.

He is still receiving physiotherapy, speech and skills development sessions.

Rabea would like to say:

I love surrogate mother 'Aya' very much.

My favorite fruit is pomegranate and my favorite color is red.

I love listening to cartoon songs.

Lastly I'm very thankful to be part of AlSondos Foundation for Special Needs family, and thankful to all our sponsors.
