

My name is **Al sayed ibrahem khalil**. I joined ALSondos Foundation for orphans with special needs in 2018/5/12.

I am three years old now.

He suffers from severe brain atrophy as a result of congenital brain defects, which leads to a severe delay in mental and motor abilities.

Alsayed needs follow-up in the neurology clinic.

Al sayed is able to sit and stand with help of other now, after doing physiotherapy sessions.

He is also able to say some words, imitate sounds, play with things, and distinguish between hot and cold.

He is still receiving physiotherapy, speech and skills development sessions.

Al sayed would like to say:

I love my surrogate mother 'Hend' she takes care of me .

My favorite fruit is apple, and yellow is my favorite color.

I love colored building blocks and listening to cartoon songs

Lastly I'm very thankful to be part of Al-Sondos Foundation for Special Needs family, and thankful to all our sponsors.
