

My name is **Adel Khalil Abdel Basset**. I joined ALSondos Foundation for orphans with special needs in 2019/7/31. **I'm four years old now.**

Adel suffers from a congenital spinal cord defect that can lead to hemiplegia. His condition has improved now as he can walk with a medical device and train during physiotherapy sessions to move and walk on his own.

After doing speech sessions, he is able to speak and communicate with others in a clear way.

We are very happy with his progress, because he is able to play and express himself and his needs, and is able to communicate with people he loves. He still goes to Physiotherapy sessions and speech sessions to improve his condition.

Adel would like to say:

I love surrogate mother 'Fatema' very much.

My favorite fruit is banana and my favorite color is red.

I love and enjoy playing with colored cubes and balls.

Lastly I'm very thankful to be part of AlSondos Foundation for Special Needs family, and thankful to all our sponsors.
