

My name is Hassan Yasser Khalil. I joined ALSondos Foundation for orphans with special needs in 2020/3/11. I am a year and a half old now.

Hassan suffers from a delay in the nervous system as a result of a delay in the growth of white matter in the brain and a mental and motor delay.

His condition improved so now he is able to stand and take steps through physical therapy sessions. He is able to say certain words and sounds and imitate those around him in terms of movement and voice through speech sessions. He is still receiving physical therapy sessions and speech sessions.

Hassan would like to say:

I love and enjoy playing Rings on a Rocking Peg - it makes me happy.

My favorite color is yellow.

My favorite fruit is banana.

I love surrogate mother 'Naglaa' very much. She takes care of me and plays with me a lot

Lastly I'm very thankful to be part of AISondos Foundation for Special Needs family, and thankful to all our sponsors.
