

My name is **Saif Adel Ibrahim**. I joined ALSondos Foundation for orphans with special needs in 2019/7/15. **I'm three years old now.**

Saif suffers from delayed growth and linguistic delay, now he is following up with a nutritionist

Saif is now receiving speech and skill development sessions in order to improve his abilities further and become able to communicate and discover things around him.

Saif would like to say:

I love my surrogate mother 'Dalia'

She always plays with me and takes care of me

My favorite color is yellow.

My favorite fruits are bananas and apples I also love to eat cake and biscuits.

I love and enjoy playing with car toy, colored cubes and coloring.

Lastly I am thankful to be part of AISondos family for kids with Special Needs like me, and very thankful to all our sponsors
