

My name is yusef abdullah issa. I joined ALSondos Foundation for orphans with special needs in 2020/6/14. I am a year old now.

Youssef suffers from a deficiency in the growth of white matter in the brain, which led to a mental delay.

On the good side, in Youssef's case, he became able to move and communicate with those around him.

Youssef receives speech and skill development sessions to make his condition better.

Youssef would like to say:

My favorite color is yellow.

I love and enjoy playing colored cubes- it makes me happy.

I enjoy listening to children's songs.

My favorite fruit is pomegranate

I love surrogate mother 'Eman' very much.

She takes care of me

Lastly I'm very thankful to be part of AISondos Foundation for Special Needs family, and thankful to all our sponsors.
