

My name is **Amira Saeed Masoud**.

I joined ALSondos Foundation for
orphans with special needs in
2015/2/24.

I am seven years old now.

Amira has a congenital disease called Down syndrome.

She has a delay in speech and comprehension – after doing the speech and skill development sessions, her mental state and speech ability improved. She became able to deal with others, understand them and do activities with them. She still goes to speech sessions.

Amira would like to say:

I love my surrogate mother ‘Doaa’ -

she always plays with me with colored cubes because she knows that I like them, and paints with me.

My favorite colors are orange and yellow also because it is the same color as bananas, and bananas are my favorite fruit.

Lastly I am thankful to be part of AlSondos family for kids with Special Needs like me, and very thankful to all our sponsors.
