

My name is Malika Hussein Ibrahim. I joined ALSondos Foundation for orphans with special needs in 2015/8/2.

I am six years old now.

Malika had a slight intellectual and speech disability.

But after doing speech therapy sessions her condition has improved .

She now speak in a clear way without a lisp in speech or cutting words

Her mental state improved and she began to understand others and what they were saying to her and communicate with them.

She still goes for skills development and speech therapy sessions.

Malika would like to say:

My favorite color is pink.

I love my surrogate mom 'Doaa' so much.

My favorite games are the colored cubes and the bride doll.

I like to sing and draw too.

I love mango so much- it is my favorite fruit.

Lastly I'm very thankful to be part of AISondos Foundation for Special Needs family, and thankful to all our sponsors.
