

My name is **Thamar Abdullah Mahmoud**. I joined ALSondos Foundation for orphans with special needs in 2020/6/22.

**I am a year and a half old now.**

**Thamar suffer from a lack of white matter growth in the brain, which leads to a delay in motor and mental development. Thanks to the physiotherapy and speech sessions she received, her condition has improved and she is able to move and walk on her own. She is also able to speak and communicate in an understandable way now.**

**She is still going to physiotherapy and speech therapy sessions.**

**Thamar would like to say:**

**I love my surrogate mother 'Engy' -**

**she takes care of me and makes me laugh.**

**My favorite fruit is the Pomegranate because it tastes delicious - its color is red and red is my favorite color.**

**I really love to playing with the bride doll.**

**Lastly I am thankful to be part of AlSondos family for kids with Special Needs like me, and very thankful to all our sponsors.**
