

My name is Naglaa Khalaf Saber
I joined ALSondos Foundation for
orphans with special needs in
2016/12/22
I am seven years old now.

Naglaa suffers from a mild intellectual disability.

After doing skills development and behavior modification sessions her mental state improved.

She is able to communicate with those who around her and play with them.

She still goes for skills development and behavior modification sessions.

Naglaa would like to say:

I love my surrogate mother ‘Dalia’ so much

My favorite colors are pink and yellow also banana is my favorite fruit.

I really like to ride a bike it's my favorite thing

Lastly I am thankful to be part of AISondos family for kids with Special Needs like me, and very thankful to all our sponsors.
