

My name is **Nour Basil Reda**. I joined ALSondos Foundation for orphans with special needs in 2018/5/13.

I am three years old now.

Nour suffers from a small hole between the atria, but after periodic follow-ups, her heart condition has improved.

We are very happy that her condition has improved because she is able to speak and communicate with those around her.

She is still receiving speech and skills development sessions to improve her abilities.

Nour would like to say:

I love my surrogate mother 'Amira' -she takes care of me and makes me laugh.

My favorite fruit is apple because it tastes delicious - its color is red and red is my favorite color.

I love a lot of games such as puzzles, dolls, and cubes, and I also love coloring and colors.

Lastly I am thankful to be part of AlSondos family for kids with Special Needs like me, and very thankful to all our sponsors.
