

My name is Maryam Ibrahim Issa. I joined ALSondos Foundation for orphans with special needs in 2019/2/5. I am two and a half years old now.

I have a congenital disease called Down Syndrome. I was suffering from a small hole in my heart and after treatment my condition improved a lot. I also have a congenital defect in the fingers on my right hand. I need continuous medical follow up and Echocardiograms of my heart every 6 months. I started walking after physiotherapy treatment. I can pronounce some sounds and I know my name (Maryam), and I pay attention when someone calls my name. I love my surrogate mother 'Donia' I like people who smile at me and I also like to smile at them. I also love to be spoiled.

My favorite color is red and I love fruits. I enjoy playing with games that have colors and light, it makes me very happy. I really love to play, but I must take medicine to be able to play and stay well.

Lastly I am thankful to be part of AlSondos family for kids with Special Needs like me, and very thankful to all our sponsors.
