

**My name is Maryam gamal Atallah. I
joined ALSondos Foundation for
orphans with special needs in 2021/8/3,
I am eight months old now.**

Maryam suffers from a congenital defect in the right part of the brain, which led to the incomplete development of part of it and affected the growth.

She also suffers from farsightedness (astigmatism) and wears medical glasses now.

She could not sit and roll over, but her condition developed and she can sit with the help of others.

Maryam still needs physical therapy sessions, speech and skills development.

Maryam would like to say:

I love my surrogate mother 'Dina'

She always plays with me and takes care of me

Lastly I am thankful to be part of AlSondos family for kids with Special Needs like me, and very thankful to all our sponsors.
